THEATRE ARTS PROGRAM

During an academic year, students will have several opportunities to work on a wide variety of shows. The program produces six full-scale productions each year – two main stage productions in the Edgerton Center for the Performing Arts and four Black Box productions in the Little Theatre. Each show is under professional direction and is presented to Sacred Heart University and the public.

The program allows for a meaningful experience in communication, analysis, public speaking, teamwork and problem solving. Skills gained will translate into a post-graduation career and lend towards preparation for a career in a variety of fields; theatre (acting, directing, producing, writing, stage management), television, film, education, media, art therapy, etc.
